

has asserted his determination to war on Germany until the Prussian autocracy is overthrown.

He also has advocated many of the principles for which the allies are fighting, and it would occasion no surprise here if he were to commit the nation to at least an informal agreement to wage the war until a peace satisfactory to all the allies could be concluded.

Must Keep Up Supplies.

The greatest problem before the conference will be the maintenance of the flow of American munitions and food supplies to Europe. This will be sought first by naval cooperation to fight the German submarine, second by construction of a great fleet of wooden merchantmen to negative the U-boat destructiveness, and third by ways and means to increase American production and the allies' ability to pay for the products.

Naval cooperation is understood to contemplate the pooling of all North and South American navies by the American navy, allowing the return of the British and French vessels engaged in that work and the safeguarding by American ships of at least part of the sea lanes to Europe.

Whether the latter will necessitate the actual sending of American war craft to the other side has not been announced, but if the arrangements already have been made to offer the port of Brest in France as an American naval base.

Will Not Ask Army.

The military participation of the United States will be discussed only in broad terms, though it is realized that this country will not attempt to send an army to Europe for the present. The military situation of this country is well understood by officials abroad. There is, however, an intense desire on the part of the general public in the entire country to see a small division of American troops sent to the front.

The great relief will come as an especial financial aid on the most extensive scale to several of its allies, and possibly when relieved of the necessity for continuing such allowances it may be able to get along with much less assistance from America than it would otherwise require.

On the other hand, the countries whose exchange has suffered so heavily, such as Russia and Italy, might welcome relief from the financial strain by an allotment of American funds, which would have a reassuring effect upon the standing of these countries in the world's markets.

Must Change Policies.

It is admitted that the conference may result in a great readjustment of the country's diplomatic situation. The allied policies of blockade, mail censorship, blacklisting, and rationing of Holland and Scandinavia, originally necessary because of the exportation of war materials, are being protested throughout by this country as a neutral, must now be considered by the United States from a new angle.

The United States is stated, therefore, to have been in a dilemma, between the policy of its allies, the exigencies of the war, and its own views of international law. The allied governments are understood to appreciate this situation and to be anxious not to make it more difficult.

War Council Members.

It was stated today that the president would be asked to effect the organization of the war council, the United States would be asked to name another.

The board, or central executive committee, as it is called in an announcement by the defense council, will operate through a special committee on national defense named some time ago by the American Railway association. Mr. Harrison, chairman also of this committee, announced today its membership would be increased to twenty-eight, divided into six subcommittees, one each in the six military departments of the country.

The Railroad's Pledge.

The executives unanimously adopted the following resolution:

"Resolved, That the railroads of the United States, acting through their chief executive officers here and now assembled, and stirred by a high sense of their opportunity to be of the greatest service to their country in the present national crisis, do hereby pledge themselves, with the government of the United States, with the governments of the allied states, and with one another, that during the present war they will coordinate their operations in a continental railway system merging during this period all their merely individual and competitive activities in the effort to produce a maximum of national transportation efficiency. To this end they hereby agree to create an organization which shall have general authority to formulate in detail and from time to time a policy of operation of all or any of the railway; which policy, when and as announced by such temporary organization, shall be accepted and carried out by the respective railroads, and the management of the individual of the railroad companies here represented."

PLAN TO RAISE LINK GARDENS

New York, April 11.—The movement to fill unused portions of golf links to increase the country's food supplies reached national proportions today with the announced approval of the plan by the United States Golf association. The idea was started by the Dunwoody Country club, Yonkers, N. Y. It is proposed to use the profits from golf links for agricultural purposes of national defense.

The United States Golf association will do everything in its power to further this movement. President Howard W. Perrin of Philadelphia said: "I believe all but 100 clubs will at once actively adopt the plan."

Frederick Upham Adams, founder of the golfers' garden corps, expressed confidence that the 300,000 organized golfers of the nation will bring forth millions of dollars' worth of food products from the links.

OLD GLORY WILL FLY BREEZE ON FRENCH AIRSHIPS

PARIS, April 11.—It was decided today that the Lafayette flying squadron, composed of Americans who have distinguished themselves at the front, will change from the French to the American military uniform and hereafter will carry the American flag at the French front.

ARMY TO STAY IN FRANCE.

Washington, D. C., April 11.—Secretary Baker has prepared a communication to Americans now serving in the French aviation corps, assuring them that the United States government recognizes the service they are rendering and is desirous that they shall continue in that work.

NAME 5 MEN TO RUN RAILROADS OF U. S. IN WAR

Harrison of the Southern Heads Board to Co-operate with Nation.

Washington, D. C., April 11.—Heads of the principal railroads in the United States, meeting here today at the call of the council of national defense, named a board of five men to direct the operation of American railways throughout the war.

The members of the board are: **Frederick Harrison** of the Southern, chairman; **Howard Elliott** of the New Haven; **Samuel H. Allen** of the Pennsylvania; **Male Holden** of the Burlington; **Julius Kruttschnitt** of the Southern Pacific.

It was announced that the purpose of the board would be to give the government the possible service not only in transporting troops and military supplies but in handling every necessary commodity.

Willard Ex-Officio Member.

Daniel Willard, president of the Baltimore and Ohio, and chairman of the defense council's advisory commission, will be an ex-officio member of the board, and the interstate commerce commission will be asked to name another.

The board, or central executive committee, as it is called in an announcement by the defense council, will operate through a special committee on national defense named some time ago by the American Railway association. Mr. Harrison, chairman also of this committee, announced today its membership would be increased to twenty-eight, divided into six subcommittees, one each in the six military departments of the country.

The railroad board will decide all matters of general railroad policy and in cooperation with the government will operate those of the British railroad board, which is operating for the government English lines. In the United States, however, the rail systems will operate in cooperation with the government instead of under its direction.

The Railroad's Pledge.

The executives unanimously adopted the following resolution:

"Resolved, That the railroads of the United States, acting through their chief executive officers here and now assembled, and stirred by a high sense of their opportunity to be of the greatest service to their country in the present national crisis, do hereby pledge themselves, with the government of the United States, with the governments of the allied states, and with one another, that during the present war they will coordinate their operations in a continental railway system merging during this period all their merely individual and competitive activities in the effort to produce a maximum of national transportation efficiency. To this end they hereby agree to create an organization which shall have general authority to formulate in detail and from time to time a policy of operation of all or any of the railway; which policy, when and as announced by such temporary organization, shall be accepted and carried out by the respective railroads, and the management of the individual of the railroad companies here represented."

NORTH STATES PUSH PLANS FOR BUMPER YIELD

Propose Huge Grain and
Potato Acreage—'The
Tribune' Aids.

BY HENRY M. HYDE.

The campaign of THE TRIBUNE to increase and conserve the food supply of the United States received enthusiastic support yesterday from Gov. J. Frazier of North Dakota, which grows more spring wheat than any other state in the union.

N. A. Nathan, secretary to Gov. Frazier, sent the following telegram in response to THE TRIBUNE's appeal:

St. Paul, N. D., April 11.—[Editor of THE TRIBUNE.]—Under date of yesterday Gov. Frazier issued an official proclamation urging that April, May, and June be made the greatest grain planting months in the history of the state and that the farmers of the state devote themselves to the patriotic task of producing as large a supply of food as possible.

Miners to Raise Spuds.

Next to the wheat, corn, and other great cereal crops the best promise of relief from the critical shortage of food seems to lie in the planting of a large crop of potatoes.

That suggestion was made by a mining man from the northern peninsula of Michigan who stopped on his way home from a vacation in the south to say that he would at once have 100 acres of waste land prepared, plowed, and planted to potatoes as soon as he got back to his mining properties. He had no doubt that he could persuade the miners in his employ to cultivate, say, half an acre of potatoes each as a small contribution to the national welfare.

Appeal to Governors.

As a result of his suggestion THE TRIBUNE yesterday sent the following telegram to Gov. Albert E. Sleeper of Michigan and Gov. E. L. Phillips of Wisconsin:

As you know, the United States is threatened with the greatest food shortage in its history. Food riots at home and defeat abroad can be averted only by the agricultural states planting a vastly increased acreage. Your state is especially fitted to the raising of potatoes. It is suggested that you immediately appoint a commission of three or four leading men to see to it that your state plants at least 20,000 more acres than before to potatoes. If you wish we will help arrange for tractor engines to do the plowing and for getting the best quality of seed. Potatoes are selling here at \$4 a bushel but farmers would be sure of a big price for all they can raise. Please write answer, as the country needs the inspiration of your example.

EDITOR CHICAGO TRIBUNE.

Conference in Michigan.

In answer to this telegram the following reply was received from Gov. Sleeper of Michigan:

Lansing, Mich., April 11.—[Editor of THE TRIBUNE.]—I have already sent 300 telegrams to the leading agriculturists and manufacturers of the state calling them to Lansing Thursday afternoon for a conference relative to increasing crop production in Michigan. I thank you for your willingness to cooperate along the lines suggested in your telegram, and should deem it advisable to accept your kindly offer of I will contribute with you. However, I believe Michigan is abundantly able to handle the situation.

ALBERT E. SLEEPER, Governor.

Name Board in Wisconsin.

The reply of Gov. Phillip of Wisconsin is as follows:

Madison, Wis., April 11.—[Editor of THE TRIBUNE.]—In reply to your wire today, the state of Wisconsin stands ready to do its full share in the matter of food production and food conservation. For the purpose of meeting the situation in an intelligent manner the legislature has created a board known as the state council of defense, consisting of nine members with arbitrary powers, whose duty it is to aid the governor in meeting emergencies that may arise because of war, to cooperate with the national council of defense for the purpose of providing service, to increase our output of agricultural products, to promote animal husbandry, and to protect the people against extortion by speculators in food products, fuel, and other necessities of life. We shall do our best to provide seed wherever necessary. We thank THE TRIBUNE for its offer of seed potatoes and if at any time we find ourselves short we will be glad to take advantage of it.

E. L. PHILLIPS, Governor.

"Stop Eating Them."

Opportunity, in view of the appeal to plant more potatoes, the leading potato expert of the country came to Chicago yesterday. And his message was startling enough:

"Stop eating potatoes!"

If all the good potatoes in the United States are saved and used for seed there will not be enough to plant a 1917 crop of sufficient size to satisfy all the needs of the people.

That was the statement of Eugene H. Gribb of Colorado. In his capacity as the American prophet of the potato Mr. Gribb has been employed for years by the great railroad systems to travel up and down their lines and preach the gospel of better potatoes and larger crops. Now he is the potato mission-ary of the Southern Pacific. In Chicago yesterday he sounded his warning to the members of the Hamilton club.

All Needed for Seed.

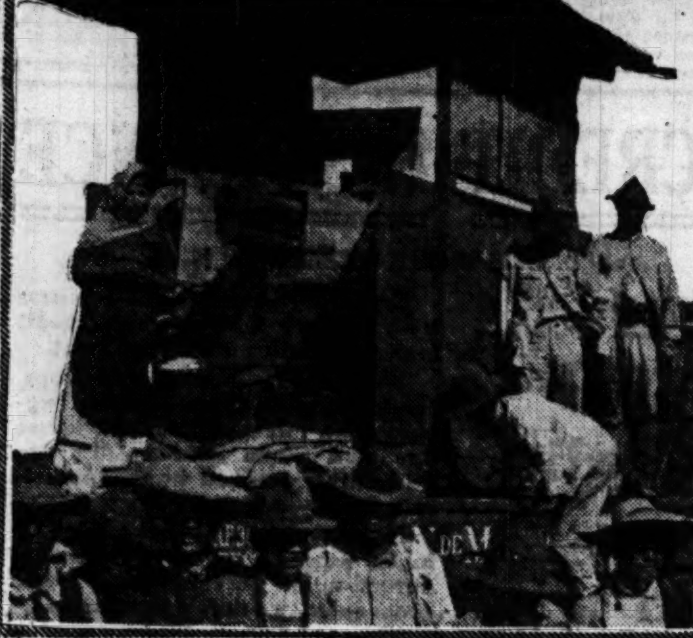

"Save every decent potato," said Mr. Gribb. "They will all be needed for seed. My sensational statement as to the shortage is based on figures gathered by Lou D. Sweet of Denver, president of the Potato Growers' Association of America. I believe them to be accurate. There are few more important potato duties than to save the remaining

MEXICAN ARMY MASSING ALONG TEXAS-NEW MEXICO BORDER

Photographic Evidence of Shifting of Troops from Chihuahua to Juarez and Eastward.

GEN. F. MURGUA snapped on arrival in Juarez.

Artillery mounted on freight car opposite El Paso.

Santa Fe, N. M., April 11.—[Special.]—Every mining camp in town in southern New Mexico will be supplied with arms and other equipment as a result of representations to Gov. Lindsey today by mining companies that Mexican troops with heavy artillery were massed south of the border.

The only Mexican troops known to be opposite the New Mexico border are the 6,000 under command of Gen. Murguia at Casas Grandes, equipped with heavy field artillery and a number of siege guns mounted on cars.

Murguia's aim ostensibly is "to check a Villa movement against the American border."

Most of the troops came from Chihuahua through Juarez, opposite El Paso, where photographers made evidence of the movement.

Several Germans were placed in internment last night and today in the general cleanup which has followed discovery of evidence which government authorities say disclosed the existence of a German plot of wide ramifications.

It is said \$500,000 in gold was sent south from Juarez yesterday under heavy guard to pay Carranza troops at Casas Grandes and Chihuahua City. Last week \$100,000 was disbursed to soldiers and civilian authorities in Juarez and \$500,000 was sent to Chihuahua City on an armed train of which Gen. Murguia had personal charge.

The total payroll of close to a million dollars correspond so closely with the amount said to have been withdrawn from El Paso banks in gold by Germans and taken to Juarez that the coincidence has excited the interest of government officials. No general alarm is felt, however, because of the border patrol maintained by the regular army and national guard.

VOLUNTEER PLAN PROVES FAILURE, GEN. WOOD SAYS

New York, April 11.—[Special.]—Major Gen. Leonard Wood, attending the opening of the baseball season here, at the Polo grounds, made the following statement when asked concerning the results of the recruiting campaign for the regular army:

"The voluntary recruiting for the army is a failure. Our inability to secure more than one-tenth the desired number proves that the only way is to adopt universal obligatory training."

Gen. Wood added the hope that President Wilson would not be hampered by congress. He asked that the newspapers print the foregoing statement in order to contradict the stories that recruiting was going on in a satisfactory manner.

Poincare Joins Crowds Celebrating U. S. in War

PARIS, April 11.—The entrance of the United States into the war was the occasion this afternoon of another enthusiastic demonstration, in which the president of the republic, M. Poincare, participated, together with many government officials, officers of the French army and navy, the ambassadors and ministers of the allied governments, attended by their military and naval staffs, and a vast outpouring of people, which testified to the sincerity of the sentiments of France toward the United States.

Why It Pays to Buy Oriental Rugs NOW

With the prices of DOMESTIC Rugs advanced in many cases almost 100%, the opportunity offered to purchase Oriental Rugs at the present Nahigian prices should not be overlooked.

Recent importations from the Persian Gulf enable us to show a collection of the better grades of Oriental Rugs which we firmly believe is the most complete stock in America today.

Each Rug has been personally selected and carefully appraised by Mr. Sarkis H. Nahigian.

CUBAN SPY NETS SET FOR TEUTONS AS PLOTS APPEAR

Mexico Also Pictured as German Hotbed of Conspiracy.

[BY CABLE TO THE CHICAGO TRIBUNE.]
HAVANA, April 11.—Reports that numerous members of the German colony in Cuba are involved in plots and conspiracies, some of which are widespread and might be far-reaching in damage to the United States, appear confirmed by the activities of the Cuban police in connection with several agents of the American department of justice.

The Cuban authorities are said to have been informed by the American government of the financial operations of certain Germans in Cuba which are calculated to cause damage to both governments, and important arrests are expected momentarily. Members of the Mexican colony here also appear seriously involved, and reported developments in Mexico are watched here with considerable interest. In this connection the assertion of a Cuban business man who has spent the last two or three weeks in Mexico City and has just returned here have attracted much attention.

Mobs Against U. S. Rifle.
German propaganda aimed at involving Mexico with the United States is in evidence in practically every one of the numerous Mexican cities he visited, this man says.

The Germans who are conducting the campaign, he asserts, have found their most attractive field of operations in the army, which is for war anywhere, with anybody, and against peace on the general principle that it would mean an end to the graft which has filled their pockets during the last few stormy years in Mexico.

"There are any number of high officers in the Mexican army," he said, "who are enthusiastic over the plan outlined in the Zimmermann 'plot' now interpreted by the United States government for an invasion of American territory with the help of Germany, and absurd as it may seem to Americans, many of these officers firmly believe the plan would succeed."

Popularize with Germany.
"This pro-German sentiment in the army has operated to inflame the civilian populace, whose feeling against the United States long has been growing."

"In Mexico City the government organ El Democrita recently came out in open espousal of the German cause. A German war paper also is being published there."

Set Teeth to Face Western World, Berlin Paper Warns

AMSTERDAM, via London, April 11.—The Catholic Volkszeitung, Berlin, under the caption "Set Your Teeth," sorrowfully admits that the whole new world from Hudson bay to Cape Horn seems fated to array itself against the central powers, and exhorts Germans not to lose the true perspective of things.

SEVEN BILLIONS WAR MEASURE REPORTED OUT

House Expected to Pass the Bill Before Next Saturday.

[BY A STAFF CORRESPONDENT.]
Washington, D. C., April 11.—[Special.]—The bond bill, providing \$3,000,000,000 for the allies and \$2,000,000,000 for use for national security and defense in this country and an additional \$2,000,000,000 if needed was reported from the ways and means committee to the house today.

It will be taken up for consideration Friday morning and passed before adjournment that night. The report on the bill was signed by all of the members of the committee.

Senator Simmons, chairman of the finance committee, has called a meeting of his committee for tomorrow and will have a report ready by the time the house acts. It seems possible now to get the bill to the president Saturday or Monday.

The purpose of the bond bill is "to authorize an issue of bonds to meet expenditures for the national security and defense and to extend credit to foreign governments." The bill, in addition to authorizing a bond issue of \$5,000,000,000, provides for bonds not to exceed \$63,945,400 to redeem the 3 per cent loan of 1906 to 1915, maturing Aug. 1 of next year, and \$2,000,000,000 worth of certificates of indebtedness, payable within one year from the date of issue.

Report Made by Kitchin.
"Your committee," says the report presented by Chairman Kitchin, "deems it advisable to authorize the \$5,000,000,000 bond issue at this time in order to enable our government to extend liberal credits and in order to provide immediately ample funds to meet such expenditures as are authorized for the national security and defense."

"The bill provides that the rate of interest shall not exceed 3 1/2 per cent per annum and leaves the terms and denominations of the bonds to the discretion of the secretary of the treasury."

"If at any time prior to Dec. 31, 1918, a subsequent series of bonds is issued at a rate of interest in excess of 3 1/2 per cent per annum, the bill provides that the bonds issued under authority of this act may be convertible at the option of the holder into bonds bearing the higher rate of interest."

Other Bonds Available.
"This bill also authorizes the secretary of the treasury to issue the remaining bonds still available to be issued under various acts."

"The secretary of the treasury at the present time has authority to issue \$472,000,000 worth of bonds; \$222,000,000 worth are still available to be issued under the Panama canal bond provision of the revenue act of Aug. 5, 1909. The revenue act of March 3, 1917, authorizes the issue of \$150,000,000 worth. The national defense act authorizes the issue of Panama canal bonds for the construction of the nitrate plant. The shipping act likewise authorizes the issue of Panama canal bonds for the purpose of that act."

MEXICANS FREE BRITISH CONSUL

Douglas, Ark., April 11.—C. G. Duncan, manager of Hacienda Mababi, sixty-five miles southwest of Douglas, in Sonora, Mexico, and British vice consul for northern Sonora, was captured and held by a band of Mexicans from Sunday afternoon at 4 o'clock until Tuesday morning, when the bandits rode away, leaving him and an American cowboy safe in a ranch house at San Diaz, fifty miles southeast. Duncan came to Douglas with the story today.

WILSON TO GIVE VOLUNTEER IDEA A SHORT TRIAL?

Sherman Among Senators Who Come Out as Foes of Draft.

[BY A STAFF CORRESPONDENT.]
Washington, D. C., April 11.—[Special.]—After President Wilson's visit to the capitol today some doubt was expressed that he will continue to insist upon the acceptance by congress of the war department's selective draft army bill without an amendment providing for a brief trial of the volunteer system.

There are many indications that the pro-volunteer and anti-draft sentiment in congress is increasing.

The president, it was said, would not be wholly averse to an amendment authorizing conscription of men after thirty or ninety days if enough volunteers were not obtained during such a period.

Leaders Oppose President.
Several of the most important leaders of the lower house are opposed to the president's plan, preferring the experiment of recruiting through the volunteer system.

Speaker Clark is understood to have instanced to the president his approval of the project approved by the administration, but Mr. Kitchin, who is a pronounced pacifist, did not commit himself to it.

It is understood, however, that he promised the president that he would not actively oppose the government's bill providing for selective conscription.

Plan for 500,000 Volunteers.
The war department virtually had decided on plans under which opportunity would be given for approximately 500,000 men to volunteer for service for the term of the war.

The net result of the new plans would be to make the total national guard and regular force to be organized first independently of the selective draft plan approximately 784,000 men, making room for the absorption of half a million volunteers. No attempt to enlist men to accomplish this will be made, however, until congress has acted and authority is granted to enlist volunteers.

Sherman in Opposition.
Senator Sherman of Illinois came out flatly against immediate conscription today. He offered a bill in the senate to raise 1,000,000 volunteers, stating that he was opposed to conscription until a call for volunteers had been tried.

"The western country is strong against conscription before trying out the volunteer plan," said the senator. "I want the president to try for volunteers for the next five or ten days."

"If volunteers do not respond, then I am for conscription and will vote for it. But I believe firmly that a patriotic sentiment exists in this country and should be allowed to express itself."

"The house and senate had better move, and move quickly. The time for quibbling is passed. It is not a mere matter of training camps but of recruiting offices and getting ready to fight."

Gain Much Legislation.
The senate made rapid progress today on legislation which hung over from the last congress. It passed the army appropriation bill for the fiscal year 1917-1918, carrying provisions for \$281,136,406. The house has passed the bill and it will go to conference for consideration of the senate amendments. This measure first passed the house last congress, but died on the senate calendar because of the filibuster on the armed neutrality bill.

The senate put back the house provision for \$3,000,000 for reserve supply equipment for the national guard. An effort was made by Senator Kirby to strike from the bill the provision for training camps like the one at Plattsburg, but it failed.

REPORT DETAILS
OF THE FIGHTING
UPON ALL FRONTSBritish Held Up by Heavy
Snow After Making
More Advances.

FRENCH FRONT

BRITISH.
LONDON, April 11.—Snow has fallen heavily and continuously throughout the day, making observation impossible and greatly impeding the operations of our troops.

Our troops have captured the village and heights of Monchy-le-Preux. The village of La Bergere was also captured and satisfactory progress was made on other parts of the battle front.

Two German counter attacks on our new positions in the neighborhood of Monchy-le-Preux were successfully beaten off. Prisoners taken in Monchy-le-Preux state that they had orders to hold the village at all costs.

Further south bodies of our troops succeeded in penetrating a German position in the neighborhood of Bullecourt and secured a number of prisoners. At midday they were counter attacked by large forces of the enemy and forced back to their own lines. The enemy attacking troops were effectively engaged by our artillery and suffered heavy losses.

AVIATION.
Our airplanes were active again yesterday, and in spite of a strong westerly gale and frequent snow storms performed valuable work in cooperation with our infantry. Few hostile machines were seen. Our airplanes returned safely.FRENCH.
PARIS, April 11.—The artillery fighting was active in the region of St. Quentin. South of the Oise the enemy, after a lively bombardment, pushed back one of our detachments northeast of Veruouille-sous-Coucy. We drove him out immediately from our position by a counter attack.

There was marked activity on the part of the two artilleries in the region of Berry-au-Rac and La-Pompele, as well as various points along the Champagne front. In Le-Pot wood we effectively shelled the enemy organization.

DAY STATEMENT.
Active artillery fighting continues over the front between the Somme and the Oise. Patrol encounters occurred at various points in which we took prisoners.

South of Oise a German attack on one of our posts east of Coucy was broken up by our fire. Near Maisons de Champagne there was severe grenade fighting during the night. In La-Pot wood the artillery firing was rather violent. North of Arras our patrols brought back prisoners. In the region of Ban-de-Sapt we inflicted losses on the enemy in the course of an incursion into his lines north of Fontenelle.

BELGIAN.
PARIS, April 11.—Belgian communication: North of Dixmude and in the neighborhood of Stenestraete the field and trench artillery on both sides engaged in light firing.GERMAN.
BERLIN, April 11.—Since early morning today fighting between the British and German forces developed on both sides of the Arras-Cambrai road and between Bullecourt and Quent.

Fighting activity in a limited area north of the River Scarpe yesterday at Givenchy-en-Gohelle, Farnus, and Farnoux effected no change in the situation.

Yesterday afternoon the British, after violent artillery firing brought forward strong forces on both sides of the Arras-Cambrai road for fresh

WHERE U. S. FLAG FLIES IN FRANCE

Detailed Map of the Famous Vimy Ridge, Captured by
Canadians, and Key Map Showing Location of
Arras Region.

The American flag is flying over the famous Vimy ridge, captured by Canadian troops in connection with the big advance east from Arras. Despatches tell of a Texan, who enlisted in Canada, raising the stars and stripes on his bayonet and taking part in the charge across Vimy ridge. The Texan was wounded.

American aviators in the British-French service also have brought the United States flag into use on the Arras field of battle. The Lafayette corps, headquartered at Averdun, will change its uniform and make up the first contingent of American army men in the European war.

attacks, but they were repulsed with heavy losses.

Along the Bapaume-Cambrai road minor engagements have occurred. St. Quentin and Lafere were bombarded with grenades and shrapnel, as on previous occasions.

From Valley to Reims the artillery activity is daily increasing. Near Farnoux (east of Arras) English infantry attacks and several cavalry attacks near Reims failed with heavy enemy losses.

On the southern bank of the Scarpe, near Monchy and Ranocourt, there have been engagements throughout the day which developed favorably for us. East of Bullecourt (west of Cambrai) and near Hardecourt, northwest of St. Quentin, a thousand English prisoners, together with twenty-five machine guns, were captured.

From Soissons to as far as Reims there have been most violent artillery duels.

RUSSIAN FRONT

RUSSIAN.

PETROGRAD, April 11.—Last night a large enemy party dislodged our patrol guard in the region of Vukolok, twelve miles north of Rostitche, and occupied first line trenches. The enemy was forced back again by our artillery fire. In the region of Terechikovez, in the direction of Sokol, the enemy, after artillery preparation which resulted in the destruction of our barbed wire entanglements at various places, forced his way into the trenches of our patrol guards. He was unable to maintain his hold and evacuated the trenches, after having bayoneted some of our wounded.

TURKISH FRONT

RUSSIAN.

PETROGRAD, April 11.—On the Caucasian front, in the region of Raghia, south of Uchevone, our troops are conducting a stubborn battle with the Turks. Elsewhere on this front scouting reconnaissances and reciprocal firing occurred.

ROUMANIAN FRONT

RUSSIAN.

PETROGRAD, April 11.—On the Roumanian front there were scout-

NAVY OPENS WAY
TO PROMOTIONS
FOR RECRUITSNew Inducements and Efforts
Win Some Rookies
—More Needed.

Closely following the extension of recruiting opportunities to men up to 35 years, the navy department yesterday offered further inducements to recruits. Lieut. L. M. Stevens, in charge of the Chicago recruiting district, announced that hereafter enlisted men may qualify for promotion without regard to length of service. This ruling is expected to attract ambitious boys.

Five hundred and fifty men applied for enlistment at various army stations here. Thirty marines were enlisted out of 100 applicants. The navy station at 619 South State street enlisted fifty from 300 applicants.

Seek More Men.
The navy and the marine corps as well as the army, both in the federal service and the national guard, have been extending their efforts. A meeting in Oak Park last evening, called by Navy league members, brought about the formation of the "west suburban district" of the Chicago office, through which efforts will be made to interest boys in the industrial suburbs west of the city. Organization among the navy supporters is being urged by Commander W. A. Moffett of the Great Lakes station. He has issued a letter calling for civilian auxiliary committees and volunteer service by examining physicians.Militia Extends Efforts.
The First Illinois artillery and the motor corps opened a new office at 1413 South Michigan avenue, in charge of Lieut. B. L. Maloney. B battery of the artillery in its new recruiting station at 29 South LaSalle street added 17 men during the day. The artillery regiment as a whole and the First Illinois cavalry together enlisted 102 new men. At the recruiting office in the Tribune building Trooper Reed Landis, son of United States District Judge Kennesaw M. Landis, volunteered his services as recruiting officer.

The First Infantry started on its campaign to bring in 175 new men, thus reaching its peace capacity, but in spite of the day's parade at the baseball season's opening and the drillwork in Grant park, made only about half its list.

Students Are Aroused.
A meeting at Armour Institute of Technology, at which Dr. F. W. Cunningham, Col. Milton J. Foreman, and P. W. Shappert spoke, not only brought forth an endorsement of universal training, but started thirty of the students downtown to the navy recruiting station, where a few took the physical examination.

The Hamilton club has opened a recruiting station in its lobby at 10 South Dearborn street. It is circularizing its membership for the volunteering of physicians and surgeons. The club has also thrown open its quarters for the training of candidates for the officers' reserve corps.

Enroll at Illinois Wesleyan.
Bloomington, Ill., April 11.—One hundred and eighty-two men students of the Illinois Wesleyan university here today enrolled in four volunteer companies and will offer their services to Uncle Sam if needed. The young women, not to be outdone, also formed a company under command of the teacher of German.GERMANS ACCEPT
REFORM PLEDGE
WITH CALMNESSRegard Promise of Universal Male Vote as
Matter of Course.BY JAMES O'DONNELL BENNETT.
[SPECIAL CABLE TO CHICAGO TRIBUNE.]
BERLIN, (via Copenhagen), April 11.—The absolute equanimity with which the people in the city and in the rural districts receive the vote reform proclamation amounts almost to an anticlimax. The conservatives seem reconciled and the radicals seem pleased, otherwise it is taken as a matter of course.

The government's opinion is that the people's dignified welcome to the reform shows them equal to the responsibilities this change involves.

The outstanding fact in the reform situation is that work begins immediately concerning the details, and it is assumed that the vote is to be direct secret ballot.

Formerly Indirect System.
The Prussian voting system was indirect, the voter declaring his choice to the commissioners, who recorded the vote. All that is to be changed with universal male suffrage assured. Whether the single or plural voting system is to be adopted is not known.

THE WAR A YEAR AGO

April 12, 1916.

French repulsed assault on Caur-ettes wood.

Germans penetrated British lines on road between Ypres and Pilkalm. Petrograd reported that the Russians had advanced below Erzerum and repulsed Turkish attacks in Bit-

If the plural voting system is adopted it is to be adjusted in accordance with the voters' service to his community, whether as a workman or as an estate owner. The more valuable he is in his walk of life the more votes he will be allowed.

Bill Goes First to King.
Prospective reform of the house of lords, with men from all classes admitted, is regarded as highly important. That body now contains some trades union leaders, their number to be increased.

The reform bill goes first to the king. In Prussia it is not a mere form, because the king is the legislative factor. From him the bill goes to the lords and the commons.

The people are confident concerning the king's attitude because he is the first monarch to recognize the value of the extension of social legislation.

Pays Family of Substitute.
Detroit, Mich., April 11.—A. E. Hall, a wealthy attorney, who said he was "too old and fat" to enlist, is paying \$50 a month to the family of a young man who took Hall's place "in the first line of defense" by enlisting in the navy.

FAILS TO CH
BRITISH ADVA"Tank" Plays Large
in the Storming
Important TownTRY ASSOCIATED PRESS
HEADQUARTERS
FRANCE, the London, April 11.—The most extraordinary feat of arms recorded in France in the war, with heavy snowfall, was the offensive against Arras continuing. This morning the British went into action and contributed to the capture of Monchy-le-Preux, an important position.

The taking of Monchy-le-Preux, the first of the village, was the first of the German machine gun positions. So, digging themselves in, the British turned their artillery against the German machine gun positions. The British "tank" circled the enemy's position and destroyed the enemy's position.

Some of the hottest fighting in the war is taking place in the region of Arras, where the British are steadily pushing forward down the slopes, their patrols are attacking which screen that side.

American Flag Flown.
Ottawa, Ontario, April 11.—The British went into battle for the first time during the world war, when the British flag was flown in France, according to an official dispatch received here today.

To a young Texan, who came to the front, and who is now wounded in the hospital, the news "belongs the honor of flying the American flag into the European war. He went to the front to fight for his country and to win the honor of flying the American flag into the European war."

The dispatch says the victory of the British in the struggle for Arras is more thorough than in any other battle.

German Press Denies D
AMSTERDAM, April 11.—The German press today denied the report that the British had broken through the German lines in the region of Arras. The German press said the British had only taken a few prisoners and that the British had only taken a few prisoners.PLAN NATIONAL
OFFICERS' DRILL

Outdoor drills for the officers' corps are to be started throughout the country in a few days. Announcement was made last evening.

Second regimental armory, where prospective officers are trained, will be held by a fourth of the total of men who had not attempted the training. This section was referred to the gallery for its initiation.

The announcement stated that grounds of the University of Vienna would be made available next week for the training of the public in the field of the public. The training will be started before the candidates are formed, as it is certain that a time for commission cannot be fixed for three weeks or more.

The civilian training camps of our summers are to be abandoned. Their stead will be training exclusively for the officers' reserve corps, for the working out of the large idea, which can be increased by the training of local army officers, but must be concentrated in a few months as much as possible military training of West Point.

FEARS HANDICAP IN OVERGROWTH OF THE MILITIA

War Department Thinks
It May Hold Up the
Regular Force.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., April 11.—(Special.)—The war department does not want the national guard to be recruited beyond its peace strength, but may find that it has no authority to keep the states from organizing as many new units of its national guard as they desire, according to a statement by Secretary of War Baker.

Secretary Baker said the judge advocate general of the army is studying the subject to determine if the states could organize new units without federal authority. He intimated that if the decision is adverse congress may be asked to legislate on the subject.

Fears General Effect.
It is well known that the war department regards the organization of a large number of new units of the national guard as inimical to its plans to raise a large emergency army.

Army officers assert there are excellent reasons why national guard recruiting should be curtailed. The national guard now has about 150,000 men and if this number should suddenly be increased to more than 400,000 men, the result would be not an army but a mob.

Not only this, but the officers for the new organizations of national guard would be appointed by the states, with political and other influences operating in the selection of these officers.

Will Fill Regular Army.
The war department policy will be to recruit the regular army up to its full strength of 287,000 men. Secretary Baker said an erroneous impression has been created from his talk with the military affairs committee of the house which he desired to correct.

The recruiting of the regular army to this number will mean the organization of new army units, many regiments, number of brigades, and several divisions. It was at first thought that the creation of these new units would seriously hamper the regular army in its anticipated work of training the emergency army, but later the general staff decided that with the present policy the army could be expanded to 287,000 men without affecting seriously its ability to train a new army.

The whole recruiting system of the war department for regulars, national guardsmen, and all alike is being held up, the secretary said, pending action by congress on the creation of the new army of 300,000.

PICKET

Miss Branham Is One of the First
Southern Girls to Concentrate
on Suffrage Work in War Time.

Miss Lucy Branham
of Maryland.

MISS LUCY BRANHAM, who saved up her graduate work at the University of Chicago last fall to take part in the western campaign of the National Woman's party, made her debut on the suffrage picket line yesterday in Washington. As one of the Maryland delegation she was one of the first southern girls to concentrate on suffrage work in war time.

Last year at Tampa bay she won a Carnegie medal for life saving by saving two persons from drowning—a young girl and a workman who could not swim, but who had tried to save her.

The purple, white, and gold banner which Miss Branham holds through the wind and rain at the door of the senate office building reads: "Russia and England are enfranchising women in war time."

Donald Ryerson Rushes Work on U-Boat Chaser

Milwaukee, Wis., April 11.—Donald Ryerson, vice president of Joseph Ryerson Sons & Co., Chicago, is winding up his business interests to answer a call to the colors. Mr. Ryerson was in Milwaukee today supervising the construction of a fifty foot submarine chaser at the plant of the Great Lakes Boat Building corporation. The craft will be taken to the Atlantic by Mr. Ryerson as soon as completed. Mr. Ryerson will command it. He is paying a bonus to the builders to rush work.

School Board Drops Action.
Charges of contributing to the delinquency of Cleora Fisher, 9 years old, and Raymond Fisher, 8 years old, against Mrs. Goldie Fisher, Oscar Pratt, L. E. Carter, and Mrs. Alma Carter, were dismissed yesterday on motion of Albert E.oley for the board of education.

ARGENTINA AND COSTA RICA SEND PLEDGES TO U. S.

Stay Neutral, but Back
Our Stand in the War
with Germany.

Washington, D. C., April 11.—Without formally announcing abandonment of their neutrality, two more Latin American republics, Argentina and Costa Rica, have given assurances of their moral support for the United States in the war against Germany.

Argentina, choosing a middle course between those of Brazil and Chile, her sister nations in the influential A. B. C. trio, has notified the state department that she "recognizes the justice" of this country's stand against German aggression. The communication contains no intimation, however, that the Argentine authorities contemplate an actual break with Berlin.

Little Costa Rica, just emerging from the throes of a revolution, sent word to her diplomatic representative here today that she endorsed the course of President Wilson and was "ready to prove it if necessary."

Argentina Near Break.
Argentina's position was defined in a note reaching the state department today in answer to the notification by this government of a state of war. The communication is regarded here as defining a status just short of an open break. Diplomats and state department officials believe it would have been difficult for Argentina to go farther at this time. The position of that government is different from that of the United States and Brazil, who have suffered directly from the submarine campaign.

It is recognized that in defining her position so frankly Argentina has assumed the grave risk of having Germany break relations with her, and by some diplomats her attitude is regarded as little less than an invitation to Germany to regard her as unfriendly. Her outspoken approval of the United States course may go far, in the opinion of many here, toward influencing some of the smaller Latin-American nations.

READY TO CALL TROOPS.
BUENOS AIRES, April 11.—The government will make no official pronouncement of Argentina's neutrality in the war between the United States and Germany, as it considers its note of yesterday sufficient. This note embodied a declaration that Argentina supported the position of the United States with reference to Germany.

President Irigoyen had a two hours conference with the minister of war today. It is reported that the class of 1906 is to be called.

and are preparing to call a contingent of conscripts to the colors.
Carlos Bocu, former minister of foreign affairs, discussing the situation of Argentina with respect to the war, said: "Our absolute neutrality would be dangerous and difficult. We owe it to ourselves to prepare for the possible eventuality of war."
Senor Bocu is of the opinion that Chile must amend its decision of absolute neutrality.

Brazil States Its Case.
RIO JANEIRO, April 11.—The breaking off of diplomatic relations with Germany is officially announced by the Brazilian government in a communication to the press. A combination of reasons is given for this action, the official explanation reading:

"Considering that the inquiry and the conclusions reached by the legation at Paris in the subject of the torpedoing of the steamer Parana established the fact that the Parana was proceeding under reduced speed, was illuminated outside and inside, including the shield with the name 'Brasil,' and considering that the steamer received no warning to stop, according to the unanimous deposition of the crew, and, further, that the steamer was torpedoed and was shelled five times, and that the submarine made no attempt to save life, then, in the presence of such aggravating circumstances and in accordance with the note of Feb. 9 and the telegram of Feb. 18, sent by the Brazilian government to the legation at Berlin, the Brazilian government severs relations with Germany."

Uruguay Proclaims Neutrality.
MONTEVIDEO, Uruguay, April 11.—The Uruguayan government today issued a decree of neutrality in the war between the United States and Germany and between Cuba and Germany.

Barstender Robbery Suspect.
Michael Hill of 1700 West Madison street, bartender in the saloon of Mrs. M. D. Flood, 2400 West Sixteenth street, who was robbed on Tuesday of \$4,000, was questioned yesterday by the police and ordered detained for further examination.

Safety for Savings

Savings of over \$42,000,000 owned by over 95,000 depositors in the First Trust and Savings Bank are safe. The Bank has capital and surplus of ten million dollars. The stock of this Bank is owned by the stockholders of the First National Bank of Chicago.

With total resources of over 90 million dollars, the First Trust and Savings Bank has in cash, demand loans and due from Banks more than 33 million dollars; in high-grade bonds, purchased with a view to find a ready market, 34 million dollars; also 23 million dollars of time loans on approved collateral security.

The experienced and conservative management, which has been the same since the Bank was organized, is a guarantee of Safety for Savings.

Tuning and Repair Service

Prompt attention to everything of interest to piano owners as well as buyers.

Your Piano Needs

will receive the same careful and responsible attention as in previous years. Our tuning and regulating, repairing, refinishing and moving departments are unrivaled in equipment.

Although interior finishing on portions of the new Kimball Hall Building is still in progress, there is no lessening of activities in any of our own departments. Kimball tuners and repairers are skilled workers of the very best, with many years' experience. All work guaranteed.

Important Now

The special attention which your piano may require at this season is important. The winter's ordeal of overheated rooms and the changes incident to adjustment for the summer all occasion some thought of maintaining the excellence of your piano. The instrument may need tuning or regulating, or repairing, polishing, refinishing, or you may wish to have it moved or stored. Our complete facilities enable us to care for your piano needs on short notice. Estimates on repair work furnished without charge.

Since 1857

the House of Kimball has continuously served the piano buyers of Chicago—evidence of reliability.

In addition to instruments of Kimball manufacture, this company is equally glad to receive and care for pianos of any make and answer questions for which our long experience especially fits us.

Other Advantages

A Special Yearly Tuning contract will care for your piano at regular intervals, at a substantial saving. Ask for particulars.

For all player-piano owners the advantages of the Kimball Music Roll Library are unexcelled, including use of 312 rolls per year under Library Plan. There is nothing like it.

Piano Buyers

will find here the very choicest models in grand or upright or player-pianos, of design and wood suitable for every style of furnishing. The Kimball is world renowned and received Highest Honors at the great International Expositions—World's Fair, Chicago, 1893; Trans-Mississippi at Omaha, 1898; Alaska-Yukon-Pacific at Seattle, 1909; and Panama-Pacific Exposition at San Francisco, 1915.

The Kimball One Price enables the inexperienced buyer to purchase with perfect assurance of getting the same value as all other buyers.

PRESIDENT LAYS PLANS FOR ARMY OF 1,200,000

Depends on Volunteers,
but Will Use Draft if
Necessary.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., April 3.—(Special.)—The administration plans to raise a land force of 1,200,000 men for the war against Germany.

The plan does not call for the sending of a large force to Europe for many months. At the present time the country has less than 200,000 trained soldiers, and all of these will be needed to instruct the new men, protect the seacoast, and defend the Panama canal, the Hawaiian islands, and the Philippines.

The first step will be the increase of the regular army from 120,000 to 250,000 men and the increase of the national guard from 150,000 to 440,000 men, the complete war strength of the army and the guard.

May Be Forced to Draft.
The administration hopes to obtain the necessary men by the volunteer system, but in event there are not sufficient volunteers the president may use the power given him in the May defense act to draft persons from 18 to 45 into the service.

While the volunteers are being organized and organized the administration will seek to put a universal training law through congress.

The president's war address and his announcement of universal training have already won a number of recruits for the principle of universal service. The Tribune correspondent today polled the senate and house military affairs committees on universal training and found a majority on each favor it.

Conscription Plan Instead of Universal Service Causes Surprise.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., April 6.—(Special.)—Members of the senate and house were greatly surprised to learn that Mr. Wilson contemplated putting conscription in force at the outset of the war without giving the volunteer system any trial except insofar as it can produce additional recruits for the regular army and the national guard.

Text of Wilson Statement.
In a statement issued today, the president said:

"The principle embodied in the legislation presented by the war department to the military committee of the senate and house have my entire approval, and its specific recommendations embody the best judgment of the officers of the war department."

"It proposes to raise the forces necessary to meet the present emergency by bringing the regular army and the national guard to war strength and by adding the additional forces which will now be needed, so that the national army will comprise three elements, the regular army, the national guard, and the so-called additional forces, of which the first 300,000 are to be authorized immediately and later increments of the same size as they be needed."

"In order that all these forces may comprise a single army the term of enlistment in the three is equalized and will be for the period of the emergency."

Hints at Selective Draft.
The necessary men will be secured for the regular army and the national guard by volunteering, as at present, until in the judgment of the president a resort to a selective draft is desirable. The additional forces, however, are to be raised by selective draft from men ranging in age from 18 to 25 years. The quotas of the several states in all of these forces will be in proportion to their population."

Kenmore 139 Wilson Ave.
Northberry 144 N. Clark St.

JACKIES HOPPER GRINDS OUT TARS AT RECORD SPEED

3 Weeks' Training in Day at Great Lakes to Meet Call.

With the navy department calling for all the men who can possibly be rushed eastward to man the fleet, recruits are being speeded up to the top notch at the Great Lakes naval training station. Hundreds of youths are being put through the rudimentary training of a bluejacket at a breakneck pace. The general order is to cram three weeks of training into a recruit in a single day. Dozens of civilian clothes on Tuesday, companies of "freshies" yesterday were put through maneuvers that naval officers consider no snap for a man of a month's experience—ordinarily as an apprentice seaman.

"Graduate" on Warships.

The training station is making no effort to give recruits the "finished" training that they ordinarily get during three of peace, which takes from four to six months. Instead, it is the effort of Capt. W. A. Moffett, commandant, to rush the recruits through in three to six weeks' time, leaving them to complete their training aboard the warships. Six hundred of such recruits, most of them having entered the station less than six weeks ago, yesterday were sent eastward.

Forty more Chicago men from the S. S. Commodore left last night for the east.

Chicagoans Glad to Go.

"I'm mighty glad I'm going to sea," said J. G. Nelson of 1200 Mount De Saio avenue. "Unless the Germans make gun fodder of me I'm coming back to marry the sweetest girl in the world." Oscar Strickland, 1130 West Washington boulevard, was another Chicago lad who shipped in the draft. Other Chicago boys were W. H. Hager, 830 East Fifty-first street; E. C. Lindemann, 129 North Morgan street; R. A. Pierson, 6509 University avenue; T. D. Coates, 1000 West Division street; Duke Benson, 943 Newgard street, Oak Park, and H. R. Bergman, 5230 North Ashland avenue.

"I'll never regret enlisting in the navy," said young Bergman. He intends marrying Miss Betty Heavener as soon as the war is over. "She wanted me to go," he said.

There still are about 3,000 recruits at Great Lakes, with large numbers arriving daily. On Tuesday 419 men were received. Up to 6 o'clock last night 275 had been received with more expected before midnight.

Mother's Plea Makes Thief Give Himself Up

After Frank Kuhns of 18 South Sangamon street had been convicted of stealing a pair of silk socks he was handcuffed to another prisoner and led away. He slipped out of the handcuffs and escaped. Yesterday he appeared at the bridge.

"Here I am," he said. "You're looking for me. I went home and told my mother, and she told me I ought to serve my term."

He was locked up.

FATE

Saves Two Lives and Takes Others in Series of Accidents.

ACOB FRIEDMAN, 12 years old, 1837 Hastings street, saved the lives last night of Mrs. Annie Chernomsk and her daughter Jennie, 4 years old, who were overcome by gas in their basement flat which is in front of that of the Friedman family.

Fred Ulrich, 78 years old, a civil war veteran, was killed yesterday when he fell or jumped from a fourth story window of Alexian Brothers' hospital, 1200 Belden avenue, where he had been for seven years.

Police of the West Chicago avenue station are investigating the death of Mrs. Anna Swatch, 65 years old, 861 North May street, who died yesterday at the county hospital of a fractured skull.

Charles Lund, 6009 Evans avenue, fell and fractured his skull yesterday while repairing an organ in the Slavich church, Huron and Racine avenues.

About fifty persons living in a flat building at 1444-50 South Halsted street fled to the street when fire spread to the upper floors.

Mrs. Katherine Keys and her daughter, Genevieve, 20 years old, 1855 South Sawyer avenue, died of strychnine poisoning, according to a report of Dr. William D. McNally, coroner's chemist, to coroner Peter M. Hoffman yesterday.

Policeman Thomas Howard accidentally shot himself in the left hand last night.

PRIVATE BANK BILL REPORTED

Springfield, Ill., April 11.—A bill to regulate private banks, amended so that only private banks operating in Chicago will be compelled to incorporate under its provisions, was recommended for passage by the senate committee on banks today. An opinion by Attorney General Brundage held that regulation of private banks applied only to Chicago would be constitutional.

The bill provides for a referendum in November, 1918, and proposes that if it becomes a law within ninety days all private banks in Chicago must come under its requirements. The minimum incorporation is fixed at \$100,000.

If You Eat in Public Restaurants Read This

Reproduced from
The Chicago Tribune
March 16, 1917

It isn't very pleasant to think you're being flimflammed. It isn't very pleasant to think you're being served with **BUTTERINE** when you think you're getting **BUTTER**. If some restaurants are doing that, the good Lord only knows what else they're putting over.

But if you live in any one of the 38 large cities listed below you don't need to be flimflammed. For in each one of those cities there are from one to forty **THOMPSON RESTAURANTS**, and when you eat in a **THOMPSON RESTAURANT**, no matter where it is, you know you're never served with any substitute, fake, or sham; you know you never get an ounce of **butterine**; you know there's no **butterine** used in that restaurant for shortening, cooking, or any other purpose under the sun. Thompson serves **REAL BUTTER** in his restaurants and uses **REAL BUTTER** in his bake shops and kitchens—the **finest creamery butter on the market and nothing else**. He never tolerates a substitute of any kind. Moreover so far as we know he is the only restaurant owner, operating extensively, who has ever been willing to announce plainly and squarely in the public press that he **NEVER SERVES BUTTERINE OR ANY OTHER SUBSTITUTE FOR PURE FOOD**.

Look for this **PURE FOOD SIGN**—

Thompson's

Thompson owns and operates 100 Pure Food Restaurants in New York, Philadelphia, Newark, Hartford, Providence, Baltimore, Norfolk, Atlanta, Pittsburgh, Erie, Buffalo, Toronto, Cleveland, Detroit, Flint, Saginaw, Grand Rapids, Indianapolis, Cincinnati, Louisville, Terre Haute, St. Louis, Memphis, Chattanooga, New Orleans, Dallas, Houston, Kansas City, Minneapolis, Milwaukee, Springfield, Bloomington, Danville, Peoria, Quincy, Decatur, Aurora and Chicago.

MARSHALL FIELD & COMPANY

Women's Silk Frocks for Spring

\$15, \$20, \$25

Representing a Special Purchase—Exceptionally Low Pricings

The opportunity for obtaining such charmingly designed Frocks at these moderate prices is seldom offered, even in this Section, which specializes in unusual values.

Selections should be made at once, for, regardless of quantities, many of the styles and colors are certain to be chosen early.

At \$15—Some have touches of embroidery on their pockets and collars; others show white crepe vestes and collars; many are made with tunics.

At \$20—Finely checked Taffetas, and soft crepe de Chine make most of the Frocks at this price. Embroidery, silk tassels and covered buttons accomplish the trimmings.

At \$25—Often two colors unite in the making of these attractive styles, which are plaited in chemise style or developed in Russian blouse lines. Some are combined with crepe Georgette in bright sports patterns. Embroidery, weighted balls and buttons make modish trimmings.

Net Frocks from \$15 up

An unusual assortment of styles, many of them adorned with narrow laces, tucks and ribbon girdles. These Frocks will prove serviceable and attractive for afternoon and evening, throughout Spring and Summer.

Sixth Floor, Wabash Avenue.

At \$25—Of crepe Georgette, braided with tulle. At the left. At \$20—Braid trimmed Frock of crepe de Chine. At the right.

At \$25—Crepe Georgette and tulle Frock. At the left. At \$20—Plaid model of crepe de Chine, braid trimmed. At the right.

At \$15—Crepe de Chine Frock, embroidered. At the left. At \$15—Two color combination Frock of crepe de Chine. At the right.

At \$20—Checked taffeta Frock, combined with silk crepe. At the left. At \$15—Tulle Frock, braid trimmed. At the right.
